ShopSphere Consumer Electronics Return Policy

Scope: Headphones, Cameras, Smart Gadgets & Tech | Category: Electronics

---

1. 14-Day Electronics Return Window

Due to the sensitive nature of digital tech products, consumer electronics have a strict 14-calendar-day return window starting from the delivery date recorded by the tracking carrier.

2. Mandatory Packaging & Account De-linking Requirements

To qualify for a refund or exchange, returned electronic devices must satisfy all criteria below:

- Complete Retail Package: Must include original outer manufacturer box, serial number barcode sticker, plastic trays, manuals, cables, power adapters, and bundled accessories.
- Mandatory Account De-linking: You MUST remove all personal Apple ID, Google Account, Samsung Cloud, and passcodes/PINs before returning. Devices locked to user accounts cannot be processed and will be returned to sender.
- Factory Data Reset: Customers must erase all personal photos, media, and data prior to dispatch.
- Physical Condition: Products with physical cracks, impact dents, water ingress, or modified firmware are non-refundable.

3. Restocking Fees & Defective Items

Restocking fee breakdown:

- Unopened / Sealed Box: 0% restocking fee (100% full refund).
- Opened & Functional Condition: 10% restocking fee applies to open-box returns to cover testing, sanitization, and repackaging.
- Defective On Arrival (DOA): 0% restocking fee. If the device is verified defective within 14 days, you receive a free prepaid return label and your choice of an immediate replacement or full 100% refund.

4. Lithium Battery Shipping Compliance

Products containing rechargeable lithium-ion batteries (such as AX-204 headphones and BX-900 cameras) must be shipped via compliant ground transportation. Customers must keep the UN3481 lithium warning label clearly visible on the exterior return carton.
